

LARGE ADVANCED WATER TREATMENT PLANT

ABOUT THIS CASE

A new advanced water treatment facility was approaching the holidays and struggling to fill the weekend graveyard shift from the existing team of operators. **waterTALENT** staffed the facility with an experienced operator to take the tough shifts with just a few days' notice, providing compliance support and relief to the team of full-time water operators, being groomed to step into the long-term leadership role for the city.

POSITION DETAILS

- Provided graveyard shift, SCADA-monitoring and operational support during the holiday months.

OPERATOR EXPERIENCE

- 33 years experience
- Final position: Chief Plant Operator
- Certified at second highest level for water treatment operations

DURATION

- Two months of as-needed operational, SCADA-monitoring support during graveyard shifts

AFTERMATH

Plant completed successful full-time hiring of relief operator
